If you can provide some information about your project, we may be able to provide some guidance. For instance; Are you putting together a family history? Have you found some old pictures but not sure how to preserve them? Will you be sharing the images with family & friends? Have you collected a few valuable pictures that you want to enhance and preserve?

Please estimate how many items you want converted to digital file formats. We will give you an estimate of the cost, and determine how quickly we can get the files back to you.

Triage

When you send your media, we sort and organize the pictures before we start the conversion process. We separate images that are of poor quality, damaged, wrinkled, torn, and duplicates.

Our estimate will identify the approximate number of good images, and the number of images that we think will not convert well, and discuss images you may wish to consider for special handling to restore or enhance the quality.

Estimating Tips:

Photographs – Stack of 100 pictures = 1” tall

Slides – Stack of 20 slides = 1” tall, Carousel = 80 – 140 slides

Film Negatives – 24 or 36 image rolls, cut into strips of 6 images

Why is this project special to you?
